Calling all visual artists

If you are a visual artist in India, and your project needs a stimulus of funds, basic funding to start off, or any financial support, Space118 might have a lifeline for you. Applications are invited from artists across the country for a production grant amount between ₹15,000 and ₹1,00,000 towards the realisation of an ongoing or newly conceived project/artwork. Saloni Doshi, its founder, shared, "Owing to the pandemic, we transitioned into a grant-making organisation two years ago. That birthed Space118 Fine Art Grant that provides monetary impetus as well as mentorship sessions, jury review sessions, and is a great platform to engage with other artists." Interested folk can log on to space118.com for more details.
